**President:** Mike Connor noted that invoices have been sent to all advertisers in the newsletter.

Also noted - a framed "thank you" was sent to Rob McGregor at No Limit Engineering.

## **ATTENTION MEMBERS...WE NEED YOUR HELP.**

**If you are going to be staying at the Copa Cabana at the Dells, you need to make your reservations NOW!!**

We have many rooms still available at the Copa. The hotel is getting concerned as we normally have twice as many rooms reserved by this time. By not reserving rooms by the cut-off date (August 1<sup>st</sup>) we are jeopardizing our costs on this year's show and our negotiating with this hotel or other hotels on future shows. If you are planning to stay at the Copa and just didn't get around to it, please call them NOW! 800-364-2672. We especially need to fill the rooms in the Palms building (double queen bed rooms). They are going to be releasing some of our other rooms to the public. Please pass the word.

Please also consider sending in your pre-registration form before the cut-off of August 15<sup>th</sup>. This helps us know what supplies and food quantities to buy.

Thank you.

Mike Connor  
Show Chair

*Vice-Presidents Letter:*

Fellow Badgerlandians, the July meeting was by far one of the most enjoyable so far this year. Rick Pribbenow, Secretary, picked me (Dave Farmer, Vice President) up at my home around 8:30. After looking over the '61 for a few minutes we headed over to pick up Mike Connor, President.

We then started our trek to the notoriously level "Land of Lincoln". We made a brief stop at the Pilot station to pick up Wally, Member, and continued downhill. Many laughs were shared on the journey, as well as many attempts to persuade Rick to do bumouts or go off-roading. I'm sure that Roz will be happy to know that we were unable to crack the armor that protects Rick's good judgment. For those of you that don't know, Illinois is a very LONG state. Upon arriving we found a large collection of trucks to view. At \$750.00 Scott Jackson's cab-over car hauler is one deal that someone has to snap up. The first order of business was to eat. Kieth grilled up some of his world famous "only burned on the bottom" burgers as well as some hot dogs. After a delicious meal and much Jell-O, we had about a thirty minute meeting followed by four hours of bench racing, as well as some real racing that I'm sure someone else will take a great deal of pleasure in describing elsewhere in this newsletter. All I will say is that I am faster than Scott Jackson's nephew, whether I am on two wheels or no wheels. The day ended for me at 10:15 that night, and while long, it was a good day filled with the three "F"s, Food, fun, and Fords. I want to thank all the Southern Chapter members for a great time. In closing I want to point out we still need a food chair. It is a crucial position that needs to be filled!!!!!! I am also enclosing the list of trophies I have so far. I plan on giving the final list to Ruthanne at her meeting on the 12th, so if you plan on building a trophy I need to know by then.

Dave Farmer, Vice President

## Club News

### New Member Update

Here's a picture of our newest members, Jim Krueger and his wife Rene, along with some of their family from Brookfield, WI. His truck is a 1953 F-100 that came from South Dakota. Jim says he's partly retired from the steam fitter/refrigeration business and plans on spending a lot of time working on his truck. Welcome Jim!

# In the Garage

Fellow members:

I was on my way to the July Badgerland F100's meeting at Keith Barth's and when I pulled into the driveway to pick up Vice President Dave Farmer, I saw his '61 F100 Unibody. I thought, let's see how far along his project is. Dave came out to greet me and we started talking about what he had been doing on the truck so far. He was quick to point out that the front sheet metal had all been replaced with rust-free parts purchased at the Greg Masters Truck Farm. He showed me around the truck and pointed out some of the things that will need repair, like the replacing the floor. Next, he couldn't wait to show me the electrical boxes and wiring he just installed in the garage. The job looked great—chrome outlet covers and all! While we were in the garage, I asked him if the engine on the engine stand was going to be the one he planned to install in the F100. He assured me it was not. It was a tired 390 with a host of parts that were in need of replacement. This would surely drain his wallet. He did mention that Floyd Johnson had helped him out with a 302 V8 and automatic overdrive transmission (located just to the left of the 390) that would be placed into the F100 when ready. We talked about transmission mounts and engine mounts and other numerous items before loading up and heading over to pick up Mike Connor so we could continue on to the meeting.

Good job on the truck so far Dave—keep up the good work. Below are a couple of photos of Dave's truck.

I'll be stopping by some of your garages or calling to see what you've been doing to your truck(s). Summer is half over and **"Dash 18"** will be here before we know it (**volunteers are still needed**). Get the trucks out, work on them, cruise in them, have some fun and be safe.

As always, your club members are a great source for information, locating parts or a helping hand. Call one sometime. You'll be glad you did!

Last month I asked if you could match up the famous Ford slogans with the year they were introduced. Well, how did you do? Below are the correct answers.

"Better Ideas. Driven by You." 1990s

"Bold Moves ... they happen every day." 2006

"Built for the road ahead" 2004

"Have you driven a Ford...lately?" 1980s

"If you haven't looked at Ford lately, look again." 2003

"A Better Idea" 1976

See you down the road!

Rick Pribbenow
