## **DASH TO THE DELLS 27- ANOTHER SUCCESSFUL SHOW!**

### **FROM THE SHOW CHAIRS:**

Ever wonder what happens behind the scenes before a show like Dash 27 happens? Many people are needed to make this a great show, and we had lots of members step forward and volunteer their time either as chairs of certain functions, making a trophy, or helping with the many tasks that need to be done to make our show great. A big THANK YOU to you all! Everything ran smoothly, and even the weather cooperated!

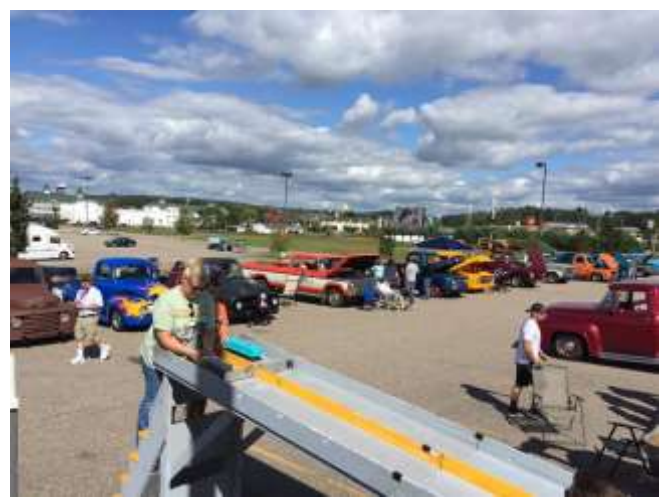

Chris and I are both passionate about making and keeping this F-100 show a fun event for everyone. We spend countless hours in the planning, organizing and making sure that happens. Thank you so much for recognizing us at the Awards this year for our contributions. It's hard work, but we love to do it.

The Dash 28 contract with the Great Wolf has been signed and is Sep 15-16, 2017. As we get ready for that, start thinking about whether you would like to volunteer for one of the jobs that we will have available.

- MIKE & CHRIS CONNOR

## Congratulations to Award Winners at the F-100 Supernationals

Craig Kragenbrink

Several of our members were at the F-100 Supernationals earlier in May this year in Lebanon, TN, and won awards. Here is a picture of Craig Kragenbrink who won a trophy in the top 10 for the '61-'66 Stock Class.

Tim Lincoln also won an award in the '53-'56 Stock Class, and Bruce & Darla Bordner won an award in the '53-'56 Custom Class. That's great representation from the Badgerland F-100's at a national show!

Congratulations to all of you on the awards with your beautiful trucks!

Check out our member, Tim Lincoln's cool bus. Unfortunately, the engine computer had issues after he got it to Wisconsin, and ended up in a repair shop instead of the Dash 27 show. Several weeks later he came back and picked it up, as well as his trailer of "goodies" he was taking back to Florida with him. Hopefully we will all see it at next year's show.

## For Sale/Wanted:

## For Sale:

Ford 302 engine (block ID number D4DE-6015-BA) from 1974 Falcon/Maverick/Granada or LTD. Engine is complete but I disassembled it to see what condition the parts were in. It appears to be all original, probably never rebuilt. Very little if any ridge on the top edge of cylinders, pistons came out with no problems. The main & rod bearings have the original Ford part numbers (rods: C5DE-6211-A-B) & no size info like std or .020 or anything like that, mains are the same (mains: C5OE-6A338-A-B) also with no size markings. The pistons are the same, no size markings which leads me to believe this 302 is all stock standard factory original parts. All parts in photos are included in price (except the engine dolly or caddy or what ever you want to call it, it does not go with the engine & parts). Intake has original 2 barrel Autolite carb, as you can see the pistons have 4 fly cuts each for valve clearance, crankshaft has no scores or marks on it & appears to also be standard. The box of bolts has several separate bags with various bolts for the engine (bagged & tagged). This motor is perfect for the restoration project if you need a specific motor to be period correct or to just have a project over the winter for your hot rod in the spring. Of course it will need to be hot tanked to clean it & magnafluxed to make sure there no cracks & then the fun of rebuilding it comes. Obviously this is too big to ship but it can be picked up locally. Text me with any questions. Need to sell this & other items, I need the space so I can get my wife's van in the garage this winter. 608-575-0426 [clrogers@charter.net](mailto:clrogers@charter.net)
