# Club Meetings/Functions:

## **MARCH MEETING:**

The meeting took place on Saturday, March 24, 2018, at the Kalscheur Park Community Center in Pine Bluff, WI for the annual Winter Banquet. Thank you to Jean Hilgers for arranging for the use of this space for our meeting. The meeting was called to order after a potluck lunch at 1:40 PM with 31 adults, 2 children, and no trucks in attendance.

**Vice President Report:** None, but everyone gave Mike Sonn a round of applause for his service as our VP this past year.

**Secretary's Report:** Motion made by Wally Zeien to accept the minutes of the February meeting as reported in the newsletter, 2<sup>nd</sup> by Rick Pribbenow, Motion passed.

**Treasurer's Report:** Chris Connor gave the Treasurer's report. No new members since the last meeting.

## **OLD BUSINESS:**

**Financial Report Club 2017 and Dash 28 2017:** Chris Connor passed around our annual Financial Report for the Club, as well as the Expense Report for Dash 28. As we sold a lot of old merchandise and had more registrations in 2017, the money we made on Dash 28 helped for us to break even on the loss we had from Dash 27.

## **NEW BUSINESS:**

### **Dash to the Dells 29 (2018) Discussion**

Mike Connor brought up the trailer parking at the show and that we really need to enforce that there can be no trailers in the show area (must park in the lot below) as the show area is getting full. It was suggested that we put up signs at the gate about this. Megan Connor volunteered to make big signs for this.

**Registration** – Theresa Sonn reported that we had 9 pre-registered prior to the meeting.

**Trophies** – Rick Pribbenow reported that he had:

Participant's Choice Panel – Dave Farmer

Kid's Choice – Wally Zeien

Rick Linskens – Rat Rod

Several other volunteered at the meeting: Barb McDermott making Lady's Choice, Eye Grabber and Best Hauler.

**Door Prizes** - Bob Kulinski reported that we are doing as well as last year at this time with receipts.

**Artwork** – Mike Connor reported that Sean is working on the artwork and will most likely feature a panel for the 15<sup>th</sup> Unofficial Panel show year. Working towards July 1st deadline.

**DJ** – Randy Roelke will contact a DJ. Everyone liked last year's but perhaps more "oldies" music.

## **Dash to the Dells 30 (2019) Discussion:**

There were (3) suggestions for the bigger door prize that were submitted to the club for voting. 3 more ideas were presented at the meeting. The following were the (6) options:

1. Table and stools with some sort of Ford or F-100 logos by Chaseburg Manufacturing (our cost \$500)
2. F-100 Truck Box Shelf with tailgate being sold on Facebook or could make from a donated box. (Approx. \$500)
3. Home Depot Cobalt Blue Garage Storage Cabinets (\$795)
4. Ford Tailgate Bench (cost unknown)
5. Fatman Fabrication gift certificate for an extra \$500 above what he gives us
6. Fatman gift certificate and the Table & Stools in #1 (\$1000)

Suggestion #1 won the vote and \$50 was given to Floyd Johnson for coming up with the idea. The club will need to discuss what logos they want on the table and stools. Discussion about how much the Club will spend on this door prize followed. Was suggested that we could use donations or do raffles, etc. to pay for it. Megan Connor made a motion to approve up to \$1000. Randy Roelke 2<sup>nd</sup> the motion. Motion passed. Wally Zeien also mentioned that he thought he could get the table and stools powder coated for free. He will look into that.

**Club Shirts** – Wally Zeien showed us a club "Support" shirt that he purchased at another show to make money. Suggested we could consider that as another idea to help pay for the Dash 30 prize.

## **Future Meetings –**

# What Are You Working On:

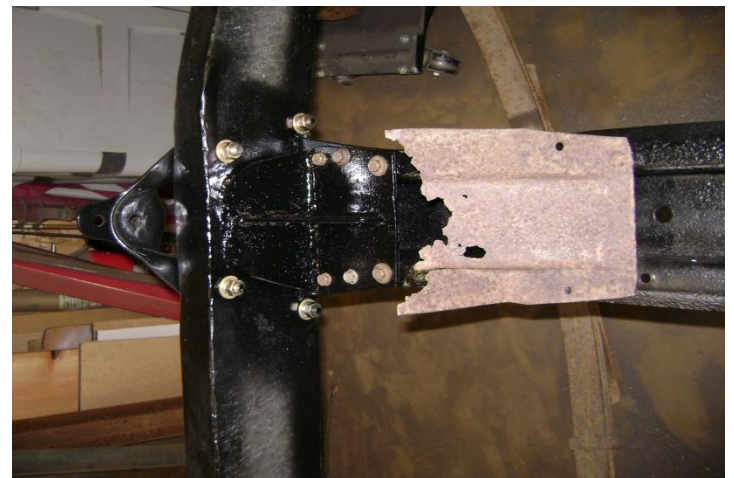

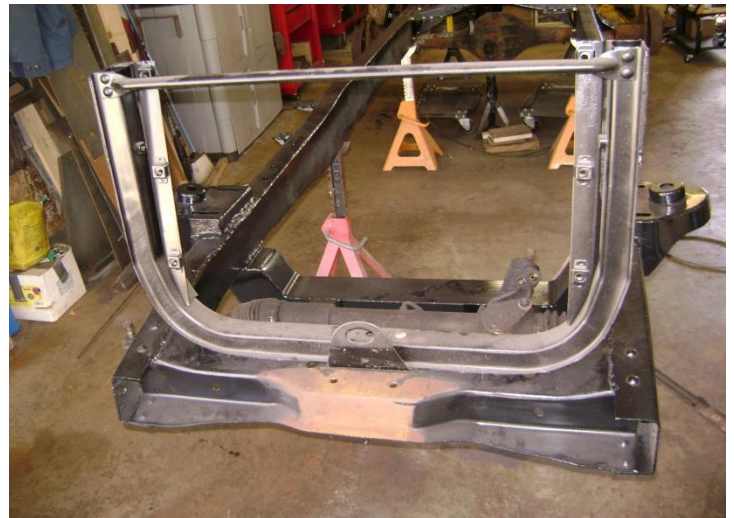

## Boxing Your Frame – By Chuck Rogers

OK, so since I didn't get an article from anybody working on their truck, so I'll bore you with another one of my own. This time it will be on how to box your frame (or at least how I did mine) for strength. As you can see by the photos there was a lot of extra stuff on the frame that I didn't need & wouldn't be using with a modern Ford V-8. Then there were a lot of holes that the rust created from sitting for many years in tall grass that holds moisture in.

I repaired all the holes first, by cutting them out with a die grinder & used the cut-out piece as a template. I cut out the new piece & welded them in. After welding the holes up, I found the frame still weaker than I wanted it, so I got some more metal from the scrap yard & cut out pieces that followed the frame curves & tack welded them in to make sure everything fit before welding them in place. I also mocked up the rack & pinion & rear end as well as making a couple of new & slightly modified cross member supports. I ended up using Ranger spring hangers & springs from a fairly late model Ranger (all from a wrecking yard). If anybody is working on a frame and needs more photos covering more things just let me know, I have more.

## What Are You Working On Continued:

## From The VP:

I first want to say thanks to everyone that voted for me to become your new club Vice President. It is pretty cool to be the first non-Wisconsin member to be an officer. I am planning to be at most of the meetings and hope to see many of you there. I'm sure getting anxious to get my truck out and wish the weather would cooperate. See you at the April meeting!

Your new VP – Scott Jackson

## For Sale/Wanted Continued:

**For Sale:** 1955 Ford Panel Truck on a 1979 Ford Bronco stock 4x4 frame with good titles for both body and frame. Owner has owned the body since the 1975 (was a Calif. truck). The Bronco frame was purchased after the original frame was lost. The original idea was to emulate a military 4x4 ambulance. Either Ford 351 or 400 C.I. engine with C6 tranny. Rear leaf springs reversed on frame to extend wheel base 6" to 110". (Stock axle location is off-center on spring). Bronco front seat. No hood nor front fenders. The body is mounted on the frame and the engine ran a few years ago when it was last started. The truck has been stored inside a garage for most of its time the owner has had it, and is currently stored on a hoist in a garage, so the underside is very visible. The steering is connected but it isn't drive-able, as there aren't any drive shafts. There is a lot of rust but it's doesn't look like a lot of rust-thru. The front corners are rusted out but the front mounts are still good. Body work will be required. Asking \$500 for body and \$500 for 4x4 frame. Located in Waukesha, WI. Call Rex @ 262-542-4510 and leave a message if no one answers.
